

Official Plan Vol 1 section 2.4.2, Policy 1 (c) -- in effect as of OPA 76
(underlining added)

1. The natural heritage system in Ottawa comprises the following significant features and the natural functions they perform:

...

- c. Significant woodlands defined in the rural area as woodlands that combine all three features listed below in a contiguous, forested area:
 - i. Mature stands of trees 80 years of age or older; and
 - ii. Interior forest habitat located more than 100 m inside the edge of a forest patch; and
 - iii. Woodland adjacent to a surface water feature such as a river, stream, drain, pond or wetland, or any groundwater feature including springs, seepage areas, or areas of groundwater upwelling;
