Q206d. Every review of the official plan addresses expanding the urban boundary, which results in the loss of rural green space. As an elected official, what is your opinion of urban expansion? Are you more likely to support intensifying within the urban boundary or expanding into rural Ottawa? Please explain.

Intensification within the urban boundary make environmental and economic sense. That said, it must be achieved in a way that is compatible with local communities and through a process that ensures community engagement and responsiveness to community concerns. Intensification should also be well distributed within the urban boundary rather than concentrated in inner-urban areas.
