Q1 1. How important is green space for residents of your ward? **Extremely important**

Q2 1a. What do you believe is the greatest threat to greenspace in your ward?

In our ward we have a particular piece of land (2.1 acres with many mature trees) that could be protected for use by the community. Currently, there is a conditional offer from a developer on the property, to convert the land into multiple residential dwellings. Where there is very little greenspace in a neighbourhood, there is a clear need to balance development with greenspace.

Q196c. How important is the Greenspace Master Plan to you as an elected official?	Extremely important
Q206d. Every review of the official plan addresses expanding the urban boundary, which results in the loss of rural green space. As an elected official, what is your opinion of urban expansion? Are you more likely to support intensifying within the urban boundary or expanding into rural Ottawa? Please explain.	

My position is that we need to maintain the existing boundary and continue with the intensification policy in Ottawa

Q238. Do you have any other thoughts or comments about greenspace in Ottawa?

Neighbourhood greenspace in Ottawa is precious – and disappearing, so we must safeguard these invaluable places.

Whether in an established community such as College Ward or a new one like the proposed development at LeBreton Flats, residents have a right to expect basic guiding principles are not just in place, but also respected. Guiding principles that ensure neighbourhoods have enough physical spaces — such as parks and activity centres — to facilitate members functioning as a community and to enhance their quality of life.
