Q206d. Every review of the official plan addresses expanding the urban boundary, which results in the loss of rural green space. As an elected official, what is your opinion of urban expansion? Are you more likely to support intensifying within the urban boundary or expanding into rural Ottawa? Please explain.

I am not a fan of urban sprawl. The green belt does not reign in development as it just sprouts up on either side. However the green belt does ensure that there is significant greenspace that provides a healthy source of nature that provides oxygen and bio-diversity that would otherwise be sacrificed without it. I am not a fan of urban expansion as it will encroach on the greenbelt and greenspaces beyond the urban expansion going farther out.

Very aware

Q217a. Are you aware of the Chalk River nuclear waste disposal plan?

Yes

Q227b. In April 2018, mayors in the Montreal Metropolitan Community (CMM) unanimously opposed the proposal to build the permanent nuclear waste disposal site in Chalk River, Ontario. As an elected official, would you support a Council declaration opposing to the Chalk River nuclear waste disposal plan?

Q238. Do you have any other thoughts or comments about greenspace in Ottawa?

Every city has a duty to protect the greenspace not just for ourselves but for future generations. Every time we consider development on undeveloped land, we are taking something away from the generations after us and that is robbery.
