

June 4, 2021

Dear Members of the CEG,

Thank you for your May 27 email informing The Ottawa Hospital (TOH) of the Campus Engagement Group's (CEG) decision to dissolve as a separate consultative and deliberative body.

TOH and its Board of Governors wish to thank CEG members for their commitment, input and collaboration on the new Civic development project.

We sincerely appreciate the CEG's contributions to the project, including consolidating design principles and producing the "A Healthy Ottawa Planning Partnership" report that reflected our shared vision of the new Civic campus as a major contributor to a healthier city. Your work in identifying issues of importance to the community provided valuable insight for the project team in these early stages of the development of this city-building initiative.

We look forward to your continued engagement and interest in this exciting project that will transform health care in our region for generations to come.

Sincerely,

Cameron Love
President and CEO

Katherine Cotton
Chair, Board of Governors

cc: Paul Johanis, Community Co-Chair of the CEG, representing the Greenspace Alliance
